

WHILE YOU'RE HERE

Options to Consider Before Your Visit . . .

At Aviation Resources, we want to provide you with all of the best services available. That's why we've created this list of Cirrus modifications and products that our team of mechanics are extremely proficient at installing! As you consider bringing your plane to our shop, check out these options for your upcoming visit. If you'd like additional information and pricing, just let us know.

SAFETY	PERFORMANCE	RELIABILITY	COMFORT	COSMETIC	PRODUCTS AND SERVICES	SR20	SR22NA	SR22TN	SR22T
♦	♦	♦	♦		Surefly Ignition System — An electronic solid-state magneto replacement. Besides reducing one magneto, the Surefly has no mechanical parts, condensers, rotors or caps to fail. Made to run to engine TBO or 2,400 hours—whichever is greater! Minimizes wear and tear on high-performance starters and electric systems. Starting is a breeze, and engine operation is smoother. Complete with our custom ignition harness.		✓	✓	✓
♦	♦	♦			BlueMAX — Capture and record data inflight, transmit to your BlueMAX-enabled device, and upload to the cloud to share with your favorite mechanic for analysis—so easy!	✓	✓	✓	✓
♦	♦				Beringer brakes and tubeless tires — Improved braking performance; shorter landing distances; 90% fewer flat tires; easier to maneuver the plane; weight reduction of 5-7 pounds.	✓	✓	✓	✓
♦		♦			Landing lights - 170 dB — 170 watts of HID light—a whopping 5.5 times brighter than factory LED landing lights! Features redundant lamps and ballasts for increased safety and reliability. (STC'd)	✓ G5/ G6 w/ LED	✓ G5/ G6 w/ LED		✓ G5/ G6 w/ LED
♦					- LoPresti Boom Beam — High-powered 85-watt HID landing light with all new wiring! Round or rectangular versions replace existing HID fixtures. The rectangular reflector is 18% more efficient than the previous rectangular version.	✓	✓	✓	✓
♦					Nav/strobe/position lights - Whelen Orion LED — Replace your incandescent and heavy, fading strobe system with this upgrade. Approximately 4 pounds lighter, increased reliability, and updated style. (TSO'd)	✓		SR22 ✓ G1 ✓ G2 ✓ G3

					◆	Door Handle Trim Ring Replacement — When the trim ring rotates, the exterior door handle is not allowed to return to its stowed position, creating cabin noise and difficulty locking the door handle. Our replacement trim ring hides unsightly composite wear and prevents reoccurrence.	All G1							
	◆		◆			CIES Fuel Sender System — Get the quantity of fuel correct—no more excuses!	√	√	√	√				
	◆				◆	Wing Walk Replacement Kit — No more grimy, ugly, slippery wing walk! Our replacement kit can even be painted to match your plane!	√	√	√	√				
		◆	◆			Louver and Baffles — Installation of Tornado Alley Turbo's STC kit keeps your CHTs cooler and even.		√						
					◆	Clean, Clay Bar, and Wax — Enjoy a sparkling clean and protected plane without the back-breaking labor!	√	√	√	√				
					◆	Exterior Face Lift — Replace fading and UV-damaged placards and aileron gap seals. Replace stained and worn wing walks. All of a sudden your plane looks newer!	√	√	√	√				
					◆	Ceramic Coating — Oxidized paint is very porous, trapping oil, exhaust soot, bugs and dust, resulting in a dull finish. Removing oxidation not only improves gloss, but helps with cleaning. Applying a ceramic coating after deoxidizing fills any remaining pores and creates a durable protective layer that will not wash off like wax and will last for many years without the need to reapply. Your aircraft will stay cleaner longer, with less effort—and look great too!	√	√	√	√
